

Changes to the SMSCC General Instructions

Add to II – Definitions and Abbreviations [subsection numbers to be adjusted]:

5. **crossroad** An INTERSECTION where you can legally turn right and you can legally turn left, and where you can continue generally straight ahead.

10. **JDI** Just Do It – Do what is directed without regard to conflicting rules.
 (JDI is never used as a trap.)

17. **sideroad** An INTERSECTION where you can legally turn right or you can legally turn left, not both, and where you can continue generally straight ahead.

Add to the last sentence of III.3 – Route Instructions:

~~Cancel a lettered route instruction when you are instructed to do so or when it is not listed as active at a manned checkpoint.~~

Add to VI.1 – Speeds, Measurement and Timing:

~~Execute speed changes and observe signs/landmarks when your front wheels are even with the first part of the indicated sign or landmark except when instructed otherwise.~~

Change VI.4 - Speeds, Measurement and Timing:

~~WWV (National Bureau of Standards Institute of Standards and Technology time signal).~~

Change the revision date from June, 2007 to February, 2011.
